

Meet our School Leaders

Farid Faruq Shaikh

Trustee and Principal of Gurukul English High School & Junior College, Mumbai

I joined the ISLI Fellowship because I wanted some predefined standards for my school, in order to bring it on par with other well established and prestigious schools in terms of quality teaching-learning processes. I also wanted regular coaching, so that I can monitor these standards and have someone to guide me wherever I am losing track.

I found ISLI to be the answer for my concern. I was very impressed to know that it is a 'one of a kind' institute, designed to make the school leaders more competent and capable, with lots of training and continuous support. So far we have implemented a few of the classroom management techniques learned in the workshops I have attended, such as Lesson Planning, as well as some of the learning from the visit to the AKANKSHA FOUNDATION school.

Slowly, but gradually, we in the management and our team are gaining the knowledge of creating a healthy culture in our school. Though there is a long way to go, I am happy that we have started the journey.
